Good day!

This refers to one of the action items during the 197<sup>th</sup> National Task Force for the West Philippine Sea (NTF-WPS) last 22 February 2022, which directs the PCSD to coordinate with DENR Region IV-B for the possible realignment of areas to be considered for mangrove planting to include the different islands of the Kalayaan Island Group (KIG).

To stabilize the boundaries of the island against extreme weather conditions and climate change impacts, may we request for the programming of ENGP in applicable areas within the KIG. We would appreciate receiving updates on the actions taken on the matter.

**Kindly acknowledge receipt of this email. Thank you.**
