COMMUNICATIONS TECHNOLOGY

Ref No. R4B-2022-05-005

May 16, 2022

TO : MIMAROPA Regional and Provincial Government Agencies

Dear Sir/ Madam:

Greetings from the Department of Information and Communications Technology Region IV-B!

In 2021 Kaspersky Security Network, a cybersecurity company has detected and blocked over 50 million web threat attempts in the Philippines alone. Echoing the same cybersecurity crisis, DICT's National Computer Emergency Response Team has received and resolved thousands of cybersecurity incidents for 2021 ranging from malware and malicious files to data exfiltration attacks.

With the increasing threats in the cybersecurity landscape, DICT Region 4B MIMAROPA is determined to reinforce the digital security of our partner's critical information infrastructure. With this in consideration, DICT R4B has designed a specialized online training to upskill the IT personnel of our partner organizations to enable them to serve as cybersecurity champions for their organization. The training, set on **May 30 – June 01, 2022** from **1:00 PM – 5:00 PM**, includes know-hows on Cybersecurity Incident Response and Threat Monitoring.

As a partner organization, we are pleased to extend this invitation to your organization/institution.

In this regard, we are extending our invitation for two (2) personnel from your organization/institution to join us in this online Cybersecurity capability development training. To maximize the training offering, may we request that the designated representatives have an IT background or experience in working in the IT sector. Participants are requested to fill out the registration link on or before May 27, 2022:
