TABLE OF CONTENTS

01. Findings, Observations and Recommendations

02. Final Mine Rehabilitation and Decommissioning Plan Accomplishments

03. 3rd Qtr 2022 Accomplishments

01.

Issues and concerns arising from the 2nd Quarter 2022 MMT Validation **No.**

MMT Findings, Observation and Recommendations Ongoing land preparation (benching, matting, installation of geotextile & coco wire net) observed for the rehabilitation of the mined out area.

Fast track the land preparation to catch up with the target hectarage

Action/s Taken

As of October 2022, the company allotted 12 Hydraulic Excavators, 10 Dump trucks, 1 Fuel Truck, 1 Lube Truck, 1 Water Truck & 1 Welding Truck. A dedicated mechanical team composed of mechanics, lubeman, and welders among others was designated to MEPEO.

200 Rolls of coconet purchased and delivered at the rehabilitation site.

No. 3 MMT Findings, Observation and Recommendations Observed stunted growth of the UDLING planted at the Rehab Area 3. Continue replanting and enrichment activity.

Action/s Taken

Syzygium sp. is often used as a hedging plant or ornamental shrub/ small to medium size tree. It's a hardy plant, tolerates poor soils, and is relatively pest-free. Tolerates partial shade, but exhibits slower growth.

No. 3 MMT Findings, Observation and Recommendations Bamboo plantation. Catch-up plan with the targeted hectarage for bamboo plantation; Intercropping of appropriate endemic species (batino, agoho, etc.,)

Action/s Taken

Included in the Agroforestry and NGP Projects of the company. Decommissioned stockyards shall be planted with Bamboo. At the mine rehab area, designated bamboo plantation area will be intercropped with endemic species batino, palawan agoho, palomaria among others

No. MMT Findings, Observation and Recommendations
5 Intensify monitoring and protection of the mangrove plantations.

Action/s Taken Secure and strengthen partnerships with different government agencies.
