Dear RED Claudio:

We are counsel for a local company that is interested in investing and developing Diwaran Island in Coron, Puerto Princesa, under a Forest Land Use Agreement for Tourism (Flag-T). It intends to provide a sustainable and environmentally sound upgrade of existing tourist facilities that may already be installed in the island under the current Flag-T holder, or continue what it currently had installed in the premises.

Our client's officers had surveyed the area and will be willing to make its own plans and investment proposals using the talent and skills of international resort consultants and island developers without disturbing its pristine environment. We are certain that with their pool of experts, they will be able to allow local tourists, especially those from overseas, to enjoy the natural offerings of the island.

The undersigned respectfully requests for a meeting with you to discuss the plans of our client further and comply with your requirements in obtaining a Flag-T or continue that which is currently held by the current grantee. He will make himself available for that meeting any day and time at your convenience early next week or soon thereafter.

We thank you for the attention you will be giving this request, and look forward to the opportunity of making special the beauty of our islands for all to enjoy under the strict requirements of a Flag-T.

Very truly yours,

Philip Sigfrid A. Fortun
