THRU : HON. JOE AMIL M. SALINO
Regional Director for Environmental Management Bureau

Dear Hon. Director Claudio:

Warmest Greetings from the Municipal Government of Coron, Palawan.

We are writing out of urgency in relation to the outstanding loan with the Land Bank of the Philippines to construct the **New Coron Public Market** located at **Barangay Poblacion 6, Coron, Palawan** as we were issued a **Notice of Violation** which suspended all activities and operations for the construction of the said project. The delay causes the Local Government Unit of Coron, Palawan substantial loses in terms of revenue as well as servicing the aforementioned loan.

At present, the temporary public market is situated on a portion of the Coron Bay Development Project (Phase 1). The Provincial Government has allowed the LGU-Coron to use this area temporarily while there were still no investors interested in developing the area. Unfortunately, there is now an investor interested in developing a large portion of the CBDP-Phase 1 and the Provincial Government will soon be requesting the LGU-Coron to transfer the public market to another location.

We are humbly appealing to your kind office to allow us to start construction of **three (3) Public Market Buildings** in the area of the **0.9 hectares** with approved **Certificate of Non-Coverage (CNC)** pending the **issuance** of the **Environmental Compliance Certificate (ECC)** covering the entire area of **1.87 hectares**. Kindly give us **sufficient time to resolve and comply with the necessary documents** as we process the **Environmental Compliance Certificate (ECC)** for the whole area.

We are looking forward to your continued support as we look ahead towards realizing our shared commitment to serve the interest of the people.

Hoping that this request merits your kind consideration and approval. May we also receive immediate response regarding this request. Thank you very much and more power. I am pleased to remain.

Thank you very much and more power!

Very truly yours;

MARIO T. REYES JR.
