Greetings!

ACX3 Capital Holdings, Inc. (ACX3) is a Philippine holding corporation engaged in the development, operation, and maintenance of renewable energy projects in the Philippines. ACX3 is a subsidiary of NEXIF Energy, an independent developer and manager of power and infrastructure projects in South and Southeast Asia.

ACX3 presently has equity interests in two (2) solar PV projects in Calabanga, Camarines Sur and Bacolod City, Negros Occidental aggregating to 224 MWp. In addition, in August 2021, ACX3 was awarded five (5) Wind Energy Service Contracts by the Department of Energy (DOE) for the exclusive right to explore, develop, and utilize offshore wind energy within certain areas off the coast of Luzon.

In line with this, attached is an introductory letter for the different offshore wind projects of ACX3. As we still wait for the DOE's offshore wind roadmap study, we are seeking for your assistance in ensuring that our projects not be challenged by other offshore activities, or if so, inform ACX3 of any present or future claims within our contract areas.

We are looking forward to a fruitful collaboration with your office to deliver a more sustainable and greener Philippines!

Best Regards,

Gavrie Bryan A. Mascardo

Intern, ACX3 Capital Holdings, Inc.
