

October 3, 2022

MR. RENATO S. GONZAGA

Protected Area Superintendent

PAMB Head Secretariat

Mt. Mantalingahan Protected Landscape

Quezon, Palawan

Dear **Mr. Gonzaga**:

We would like to acknowledge receipt of your September 27, 2022-dated letter which we received on September 28, 2022 pertaining to the request of the Company for a **Protected Area Management Bureau (PAMB) Clearance** for **MPSA No. 220-2005-IVB** located in Brooke's Point, Palawan.

MacroAsia Mining Corporation (MMC), thru its Operator Calmia Nickel, Inc. (CNI), would like to concur with the proposed schedule for the continuation of the area verification/validation of the boundaries of MPSA No. 220-2005-IVB within the MMPL on the 3rd week of October 2022 and onwards.

Concurrently, we would also like to recommend the engagement of a Geodetic Engineer (GE) deputized by the Mines and Geosciences Bureau (MGB), whose professional fee will be shouldered by CNI, to provide technical expertise.

In this regard, we would like to inquire on the specific date/s that your team will be available for the area verification/validation and if the engagement of the GE is amenable to your Office.

Thank you very much for your attention and kind consideration.

Very truly yours,

OMAR TEOGENES A. ALFONSO

Project Geologist
