- **Impression/Comments:**

Each presentation was informative. Various new laws have been introduced and are important in day-to-day office transactions. This is a review for me because I was on ENR when I was only SG4. Presentations are very helpful in making decisions in every situation, especially in technical matters. This will be the basis of client inquiries and resolution of office problems.

I hope I can also experience the Face-to-Face ENR Course. The topic is good, hope don't rush it in presentations.

II. RELEVANCE OF THE LEARNING EVENT TO PARTICIPANT'S WORK/FUNCTION:

This is a rewarding benefit to me because my assignment is technical and my course is also technical. It is very wise for a person like that if the work is technical.

II. RECOMMENDATIONS:

First of all, thank you so much for this opportunity in joining me in this ENR Course. Still have a lot to learn. Hopefully, next time can focus on lectures/presentations and discussion/open forums. Hope it's only in a place where no one can bother listening to the lecture or in a conducive environment. Hopefully next time it will be face to face so that we can also personally meet the speakers and secretariat and our classmates.

IV. POST LEARNING ACTION PLAN/PROPOSAL:

Proposed Plan/Activity/Output	Time Frame
