SUBJECT : **CONDUCT OF SOIL COLLECTION FOR EXTENT DETERMINATION, WATER COLLECTION AND ANALYSIS IN BAMBANIN AND KISLOYAN PEATLANDS UNDER THE STUDY ENTITLED "UPDATING PROFILE/STATUS OF PRIORITY PEATLANDS IN THE PHILIPPINES".**

This is in connection to the continuous implementation of the study titled "*Updating Profile/Status of Priority Peatlands in the Philippines*". The FWRDEC research team will continue its remaining targets and deliverables this 3rd quarter in your respective Area of Responsibility of 2 identified and priority peatland areas namely Kisloyan and Bambanin peatlands in Oriental Mindoro on September 22-26, 2022. The remaining activities include: soil collection for extent determination, water collection and analysis. Significantly, the result of the activities to be conducted will determine the status, extent or boundary determination of the said peatland areas.

The research team headed by For. Joel B. Orella, project leader, will conduct the following activities:

Persons Involved	Activities	Location	Inclusive dates
For. Joel Orella For. Janwyn Cagadas	Soil collection for extent determination, Water Collection and Analysis	Bambanin Peatland & Kisloyan Peatland, Oriental Mindoro	September 22-26, 2022

Maharlika, Bislig City, Surigao del Sur
Mobile No: 0917-703-0253
E-mail: erdbfwrdecgov@gmail.com

Department of Environment and Natural Resources
Ecosystems Research and Development Bureau
Forest and Wetland Research, Development and Extension Center

Thus, the holistic result of the study will be an input to management plan and come up with procedural manual for peatland assessment for sustainable management strategies in protecting and conserving priority peatlands in the Philippines.

With these aforementioned activities, we may request for assistance from CENRO Socorro and PASU office to facilitate the communication to BLGUs and assist us during the conduct of the said activities and at the same time will be part of mentoring of your technical personnel. The competency of your personnel to work with the team will be of great support for the study.

For more queries, please contact For. Chyrra Tiña, project staff @ 09055782462/09073000722.

For information and consideration.

CONRADO B. MARQUEZ
