Dear Sirs/Ma'm,

This pertains to the ongoing Special Project entitled: **Assessment of Coastal and Marine Initiatives in the Philippines**, being implemented in collaboration with the Partnerships in Environmental Management for the Seas of East Asia Resource Facility (PRF). One of the selected coastal and marine projects to be subjected for assessment is the World-funded "**Capturing Coral Reef and Related Ecosystem Services (CCRES) project**" implemented in El Nido, Palawan completed in December 2019.

In relation to this, a field validation surveys/interviews will be conducted with the various project stakeholders (DENR, PO/ community members, LGUs, OGAs, academe, etc.) involved in the implementation, supervision and management of completed coastal and marine (C&M) projects implemented within your area of jurisdiction. The activities will be undertaken through key informant interviews (KIIs) and focus group discussions (FGDs) which are scheduled on the week of **September 28, 2022 to October 1, 2022**. The Evaluation Party will arrive at Puerto Princesa on September 28, 2022. Attached is the memorandum of the Undersecretary for Policy, Planning and International Affairs regarding this activity for your reference and guidance.

We appreciate your kind assistance and cooperation for the successful completion of the assessment.

Thank you

ROLANDO B. CARBON (Rollyc)
