Dear Sir or Ma'am,  
Good day.

This is to submit the digital copy of CBNC's letter to EMB Central Office related to the results of the tests on the use of 5% Wood Pellet (WP), as well as the application of Certificate of Non-Coverage (CNC) for the following Pilot Testing projects:

1. Pilot Test of up to 10% Wood Pellet (WP) from its original plan of 1-5% WP mix as alternative fuel for CBNC's Coal-Fired Boilers.
2. Pilot Test of Green Energy Pellet (GEP) derived from Acacia wood by-product as biomass fuel to further reduce CO2 emission.

Thank you very much,

Thank you very much,  
Reya Agravante- Belaro
