Relative to this, patrollers observed some threats during their preventive patrolling and surveillance within the conservation areas like alleged cutting of trees, alleged mining and quarrying, landslide and mudslide, garbage and hunting.

To mitigate and address the threats observed, patrollers immediately acted by coordination with the Barangay and Municipal Local Government Unit, attended assembly meetings to include the conduct of Information, Communication and Education Campaign in accordance to the existing Environmental, Laws, Rules and Regulations, and regular patrolling and surveillance in the subject area. Furthermore, data managers addressed the threats encountered by uploading in the LAWIN system and included in the submission of Monthly Accomplishment Report.
