Good day!

This is in connection with the conducted Technical Review on the submitted Environmental Impact Statement of **Bird's Nest Resources Corporation (BNRC)** for the **Mompong River Restoration Project** dated **18 August 2023**, through a hybrid conference.

We would like to follow up if there are still additional inputs and comments on the submitted EIS. You may use the previously provided Pro-forma for the additional comments and inputs. Please be advised that all comments and inputs must be provided to this Office on or before **22 August 2023 (Tuesday)**. No comments/inputs received from your end until the set deadline will serve as your confirmation on the EIS since this Office has already given ample time before the technical review proper.

Hope this email has guided you accordingly.

Thank you.
