SUBJECT : **NOTICE OF MEETING FOR THE TECHNICAL REVIEW OF THE  
PATRICK-VIGA RIVER DREDGING PROJECT OF PERRC  
CONSTRUCTION AND DEVELOPMENT CORPORATION**

The **PERRC Construction and Development Corporation** has submitted its Environmental Impact Statement (EIS) for its above-mentioned proposed project. In line with this and in accordance with the DENR Memorandum Order 2023-01, the EMB MIMAROPA would like to invite you to attend the **Technical Review (TR) on 01 September 2023, (Friday), 1:00 PM** at the Office of the Regional Director, 6th-floor DENR by the Bay Bldg., Roxas Blvd., Ermita, Manila. If physical attendance at the Technical Review is not feasible, the meeting may be accessed virtually via Microsoft Teams through the link: <https://tinyurl.com/PatrickVigaDredging>.

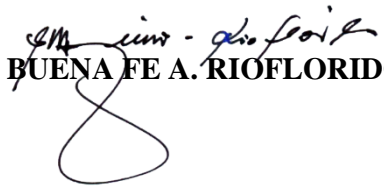

The TR aims to ensure that the data, impact assessment, and management measures presented in the EIA Report are those that will be critical in the integration of environmental and social concerns of the proponent’s Feasibility Study and downstream activities of the project. Additionally, the activity aims to advise and inform the decision-making of other units, bureaus, offices, and regulatory government agencies on the critical environmental and social concerns of a development proposal, as well as to provide guidance for the validation of projected environmental and social significant impacts.

Attached herewith are the project’s EIS and its annexes, the Technical Scoping Checklist, for your review and reference. Kindly input your comments in the attached Pro-forma for the Environmental Impact Assessment Review Committee (EIARC) Additional Information (AI) Request and send it to the email address: [eia.embr4b@gmail.com](mailto:eia.embr4b@gmail.com) on or before the scheduled Technical Review.

For further inquiries and clarifications, kindly get in touch with the Clearance and Permitting Division (CPD) at this email address: [eia.embr4b@gmail.com](mailto:eia.embr4b@gmail.com), or Telefax No. (02) 8-4005960 or (02) 8-5369786 and look for the project case handlers **John Junico B. Udal and Bianca Christianne I. Roldan**.

Thank you for your usual cooperation and support of the EIA system.
