## Zero Waste to Nature through EPR has been rescheduled to November 16-17, 2023

Together with our partners, [Ecowaste Management](#) and [Bluewater Consultancy, Training and Services](#), we have made the decision to postpone the [Zero Waste to Nature through EPR virtual seminar](#) to **November 16-17, 2023**. We want more people to benefit from the sessions and the presentations of our experts and this additional time will help us inform other people about the event so that many more can take advantage of this learning opportunity.

We hope that you can join us in November for this two-day virtual seminar that will tackle:

- The EPR Law
- The Waste Diversion Credit
- The roles and responsibilities of the obliged enterprise, Producers Responsibility Organization, certifying bodies, waste diverters, national government, and LGUs
- Innovative technologies and procedures for recycling or converting waste to fuel or energy
- Tourism and waste

Aside from hearing from experts, you will also have an opportunity to ask them your pressing questions.

### Who should attend?

- Private companies
- Pollution control officers
- Provincial, City, Municipal and Community Environment and Natural Resources officers (PENROs, CENROs, MENROs)
- Waste management companies

Visit our website for more information. We hope you can join us at the event!
