Subject: BLLM for Calapan Oriental Mindoro

Dear Sirs,

I was offered a property and need to verify the location of said property.

In the title the technical description refers to a tiepoint with a vector leading to point 0/1. From there the meets and bounds can be established as per technical description.

Where can I find a list of all tiepoints or BLLM's with proper GIS coordinates?

At the very least the list of Calapan BLLM Coordinates would be needed.

Thanks in advance for your help

With best regards
