ISSUES AND CONCERN RAISED DURING THE MEETING AT BARANGAY PROPER BANSUD (May 24, 2023)

NAME/DESIGNATION	ISSUES/CONCERN RAISED	RESPONSES
Mr. Charlito Aldaviso - Barangay Kagawad	What is the purpose of this project	This dredging project is a project of the province of Oriental Mindoro. The purpose of this project is to improve the conveyance capacity of the river to minimize flooding within your barangay and adjacent areas.
	Noong nagkaroon ng dam ang NIA lumiit ang daluyan pababa, kasi naharangan nila daloy ng tubig.	This is noted po

NAME/DESIGNATION	ISSUES/CONCERN RAISED	RESPONSES
	Is this the same with quarry?	This is different with quarry. The proposed project is inline with the DPWH plan and will cover area from the bridge up to downstream or delta.
	Effect on fisherfolks utilizing the delta part and the bay. Baka hindi na sila makapangisda	Prior to project operation the proponent will closely coordinate with barangay and fisherfolks association to discuss this matter.
	River bank protection	Based on the DPWH plan, the proponent will maintain a buffer zone area to protect the river banks and avoid erosion.
	Effect on private land/property along river bank area	The purpose of this project is to lessen the flooding that affect the areas along the river bank. The dredging project is only at the river area and the private land nearby river will not be affected.
	How effective is this project? How can you guarantee that no more flooding will happen especially during rainy season?	As said earlier the purpose of this project is to improve the conveyance capacity of the river to minimize flooding. A continuous extraction of heavily silted materials will help to lessen the effect of flooding especially during rainy season.
	Effect on the core housing areas located nearby the river. May mga pabahay po kami diyan.	The project will not cover the residential area.
