Dear Ms. Lormelyn E. Claudio,

Greetings from Pagasa Philippines Finance Corporation!

I am Ma. Socorro C. Ates, Deputy Manager for Social Performance Management and Corporate Social Responsibility.

We are writing because we are very much interested in partnering with your organization regarding climate change adaptation and mitigation measures. We can offer the service of our clients and staff on your activities, especially on tree planting. We have a target of 500,000 trees to be planted this 2023 and we are very much willing to partner with national and local government units to offer our service. If your department also offers training/orientation on how to mitigate climate change, the importance of planting trees, and the segregation of waste, we would like to invite you to also conduct training for our clients and staff in our branches or if you already have training activities we could send our staff and clients to participate.

Attached is our letter of interest to be a partner in your activities for environmental sustainability.

We look forward to our partnership in saving Mother Earth.

Thank you very much.

Respectfully,

Soc Ates
