ATTN: ALL PENRO AND CENRO DIRECTORS

Dear Director Claudio:

Madayaw!

We would like to invite the researchers and students and graduates of undergraduate and graduate programs of your agency to our Call for Abstracts for unpublished papers from gender studies in Agriculture, Aquatic, and Natural Resources (AANR) conducted from 2010 to 2022. Our team has been working on a two-year research project with the title, *"Annotated Compendium of Gender and Development (GAD) in Agriculture, Aquatic, and Natural Resources (AANR): Towards the Developing the Gender and Development Research and Development (R&D) Agenda and Framework."* This project is funded by Department of Science and Technology - Philippine Council of Agriculture, Aquatic, and Natural Resources Research and Development (DOST - PCAARRD) and is implemented by our team from the University of the Philippines Mindanao - School of Management. Your abstract and paper will form part of the DOST-PCAARRD database and will contribute significantly to the preparation of the GAD R&D agenda and framework in the AANR sector.

In line with this, we would also like to seek your assistance in sharing our Facebook post in your Facebook page as shown in this link <https://bit.ly/GAD-AANR-Call-for-Abstracts>. The details of the Call for Abstract are also found in this link.

Lastly, we would like to request access to research outputs and reports in AANR sector with gender analysis conducted or funded by your agency. The gender analysis may include the topics of sex-disaggregation, decision-making, and level of empowerment. Such outputs will be used in the analysis of the current stock of literature on gender research in AANR sector in the country.

While you may not experience any direct benefits from your participation, you may benefit from the research outputs through the future directions of gender-related researches and reports in AANR and relevant resources, recommendations for capacity building program for researchers necessary for the conduct of potentials studies and programs, and development of the AANR GAD R&D agenda and framework. Rest assured that we will share our research findings with you.

If you have any questions or concerns regarding our request, you may contact us through either of the following:
