December 12, 2022

HON. LORMELYN E. CLAUDIO, CESO IV

Regional Executive Director
MIMAROPA REGIONAL OFFICE
Roxas Boulevard, Ermita Manila

Dear Madam:

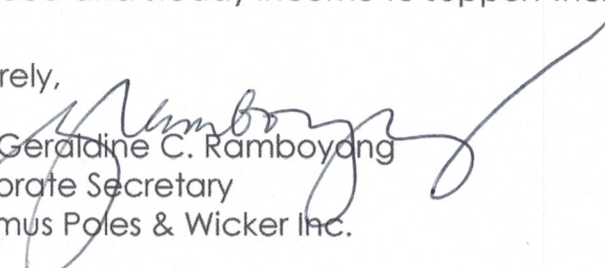

This is in reference to the renewal of our Rattan Processing Plant License which will expire on November 5, 2023 established in Puerto Prinsesa Palawan. A rattan processing site in Bacungan, Prinsesa, Palawan for buying and processing of finished and semifinished rattan products harvested from areas in province of Palawan. Our yard in Bacungan, Prinsesa which is the registered address of the current RPP was severely damaged and washed out by the typhoon during Odette onslaught. We would like to renew our existing Rattan Processing Plant License (License No. 2018-001) and re-establish our new Rattan Processing yard in Roxas, Palawan.

Anent thereto, the undersigned is the representative of CALAMUS POLES & WICKER INC. authorized to process and to follow up with the appropriate agencies and government offices all documentary requirements necessary for their request.

We would like to seek your special attention to the fact that the CALAMUS POLES & WICKER INC. is a duly-organized and duly-recognized corporation registered with the Securities and Exchange Commission with Registration No. CS201410177.

In the exigency of service to the members of the Palawan Indigenous People's organizations and to give them ample source of income, may we respectfully request for the requirements and guidance of the Rattan Processing Permit renewal to enable us to continued support to the indigenous tribe or group purchase and process rattan products within the specified area of coverage, in order for the member of the indigenous communities to have a sustainable livelihood and steady income to support their families and children.

Sincerely,

Atty. Geraldine C. Ramboyang
Corporate Secretary
Calamus Poles & Wicker Inc.
