SIR/MADAM:

Good morning! In behalf of our District Office, I wish to make a follow up regarding our email last January 03, 2023 with the same subject, with attached letter addressed to the Regional Executive Director requesting for the issuance of the Special Patent of the said Presidential Proclamation which is still pending with DENR. Our office was advised to write to the RED directly because the CENR Office of Puerto Princesa who also wrote to DENR Manila has not received any response regarding this matter. This request started way back in the term of the late President Benigno Aquino III but until today, our office has yet to receive an update on what happened to our several communications to the DENR.

The said Proclamation was entrusted to the NHA as Administrator and we had also infused capital outlay in the housing site which we need to recover. The intended beneficiaries are growing weary of their security of tenure in the project given the delay in the vital document for the project to finally push through.

We are taking every possible chances or avenues for us to secure the said Special Patent needed which is a primary requirement for the project to be completed.

We have attached for your ready reference our letter to the RED dated January 03, 2023 for reference, information and appropriate action. Thank you and God bless.

Very truly yours,

MR HERMINIO B. LATOZA
Estate Supervisor B
NHA Region 4
MIMAROPA District Office
