**Subject:** Concrete construction within the salvage zone in Occidental Mindoro

Good afternoon,

I saw an episode of KASISTER MERRY Vlog published on 9 November 2022 on YouTube just awhile ago. Part of the vlog was discussing how the concrete structure in their barangay was destroyed by the waves. Some shots featured how they are reconstructing what was damaged using concrete and dead coral reef skeleton. The construction site as I saw it was within the salvage zone of the area.

Construction of such kind is prohibited under existing DENR rules and regulations.

I attached below some pictures taken from the vlog for your appreciation.

It will be appreciated if you could furnish me of any action done on this issue.

Kind regards,

Allan Leuterio
