Subject: Request Letter for DENR MIMAROPA

SpongeEE
FEU Institute of Technology
P. Paredes Street, Manila

COE0059 - Technopreneurship for Engineers Class Project

To: Department of Environmental and Natural Resources MIMAROPA

Sir/Madam,

Herewith is my undersigned Ann Drea Ortea with the student number, 201911196 under BS Electrical Engineering Program would like to certify that the names listed below are the group members of this innovative project named SpongeEE:

1. Deanna Isabel Agtoto
2. Abigail Dizon - 202011011
3. Tyra Rose Peregrino - 202011113

We are students of FEU - Institute of Technology and we are currently undertaking the subject COE0059 - Technopreneurship for Engineers. As a class project, the subject requires us to acquire knowledge of reengineering the business process and identify how our product will benefit the environment.

SpongeEE is a 3D printed oil absorbent boom using biodegradable wastes. It offers quick containment and removal of oil that minimizes environmental hazards and safeguarding coastal areas.

In order to do so, we are required to acquire feedback from experts on our product design and validation. We would perform the research by conducting an interview via Google Meet at a time convenient for the interviewee.

We would like to ask for your cooperation to permit us to conduct this project as well as assistance in completing the project.

Thank you.

Ann Drea Ortea
FEU-IT Student
