The BMB, with the assistance from the USAID-Protect Wildlife Project developed the Wildlife Agency and Citizen Law Enforcement Reporting Tool or WildALERT, a mobile application that aims to improve the wildlife law enforcement in the Philippines. This mobile application serves as a library of flora and fauna species for easy reference of DENR personnel. It was further enhanced with the integration of flora module through the support of the DENR-ADB/GEF IWT Project. In preparation for the national implementation of the said system, this Bureau will be distributing two (2) tablets for use by the following DENR Offices:

Recipients	Equipment to be distributed
Enforcement and Monitoring Section of PENRO Romblon	one (1) tablet
Enforcement and Monitoring Section of CENRO Roxas, Oriental Mindoro	one (1) tablet

Further, the BMB has also developed an electronic permitting system for the processing and issuance of CITES Permits. In support to the national implementation of the said system, we will also distribute one (1) tablet to the Licenses, Patents and Deeds Division of the Region. The BMB has identified **Ms. Carmen Ramina Tubal** as recipient to the aforementioned tablet.

Relative thereto, we are sending herewith original copies of Inventory Transfer Report (ITR) for the above-mentioned tablets.
