July 19, 2023

Dear Sir/Madam:

Padayon!

I am corresponding on behalf of Casa Heneral Bed and Breakfast located in Brgy. Masagana, El Nido, Palawan.

Our staff went to the Community Environment and Natural Resources Office (CENRO) of DENR Region IV MIMAROPA at Taytay, Palawan regarding our request for lot verification/classification status.

According to CENRO, Psd-04-018799 is not found on their file upon records verification. In view thereof, we would like to request assistance from your good office as to where we can get the original copy of our Land Survey with the complete signature of the Geodetics and the Region. Kindly see the attached documents for your reference.

- a. To which office should we coordinate to request a copy of the original blueprint with complete signatures?
- b. Are there any requirements needed for the request and how much is the fee?
- c. How do we resolve the incomplete signatures from the land survey?
- d. If there are no records of the land survey blueprint, what should we do?
- e. Should we have our property assessed again? If yes, what accredited Geodetic Engineering Office can you recommend?

We hope to hear from you soon and merit your most favorable response as we need this document to process our ECC application. Thank you very much for your kind assistance.

Sincerely,

Ms. Christine Marie Lim Magpile, LPT
