Dear Ma'am/Sir,

Maccaferri Philippines would like to extend this formal invitation to you and your esteemed organization to participate in our upcoming webinar on **July 6, 2023 (10:00 am to 11:00 am)**, with the topic of "Application of Sand-Filled Geosystems in Coastal Engineering." This webinar aims to explore the innovative techniques and advancements in coastal engineering using sand-filled geosystems, with a particular focus on the utilization of MacTube® in various coastal and marine engineering applications.

The webinar aims to bring together professionals, researchers, engineers, and industry leaders from coastal and marine engineering sectors to foster knowledge exchange and explore new opportunities for collaboration. By participating, you will gain valuable insights into cutting-edge practices, engage in meaningful discussions, and discover the potential applications of MacTube® in your own projects.

To register for the webinar, please visit <https://www.maccaferri.com/ph/webinar/application-of-sand-filled-geosystems-in-coastal-engineering/>.

We look forward to your positive response.

Yours sincerely,

Maccaferri Philippines
