TRAINING ON THE PREVENTION, SUPPRESSION AND MANAGEMENT OF FOREST PESTS AND DISEASES

I. Introduction

The natural and plantation forest in the country has been facing new and increasing threats from forest pests and diseases. These threats pose negative consequences to the environment and native habits, apart from economic losses from plantation forests. The capacity of the DENR field officers to identify, prevent and manage these forest pests and diseases are limited.

In order to strengthen the capability of our field officers to recognize and prevent these forest pests and diseases, this Office shall conduct a training on the prevention, suppression and management of forest pests and disease. The activity will include hands-on training on properly identifying pests and diseases, and implementing prevention and suppression measures.

The training shall be conducted on 24-26 May 2023 in Metro Manila to be participated by representatives from the Regional Offices particularly from the Conservation and Development Division (CDD) and Enforcement Division (ED).

II. Objective

The conduct of this activity generally intends to capacitate selected DENR personnel with the knowledge and skills in the prevention and suppression of forest pests and diseases. Specifically, the training aims to achieve the following:

1. Capacitate the participants in identifying forest pests and diseases;
2. Capacitate the participants in employing preventive measures in addressing the threats of forest pests and diseases;
3. Capacitate the participants in determining suitable methods in managing forest pests and diseases; and,
4. Provide an avenue for the participants to share their experiences in managing and addressing forest pests and diseases.

III. Participants/Learners

The activity shall be attended by selected personnel from the Forest Management Bureau, and the Regional Offices particularly from the Conservation and Development Division (CDD) and Enforcement Division (ED).

IV. Materials

During the conduct of the training, the participants are required to bring their laptops and current data regarding forest pests and diseases within their respective regions, if available.

V. Schedule

The activity is scheduled on the 2nd Quarter of CY 2023 based on the approved Work and Financial Plan of the Bureau and will be conducted on 24-26 May 2023 in Metro Manila.
