Dear Ma'am/Sir,

I hope this letter finds you in good health and high spirits. I am writing to request your esteemed institution to assist us in testing the sample of our research project entitled "The Effectiveness of Hibiscus Rosa Sinensis and Cymbopogon Citratus Stapf as Hand Sanitizer."

I represent grade 12 research team in strand of Science, Technology, Engineering, and Mathematics from Camp General Emilio Aguinaldo HighSchool, Quezon City, and we have been diligently working on this research project to explore the potential benefits and efficacy of Hibiscus Rosa Sinensis and Cymbopogon Citratus Stapf as a Hand Sanitizer. As part of our study, we have developed a sample that requires testing and evaluation to validate our findings.

We have chosen your institution due to its reputable expertise and state-of-the-art facilities in the field of science. We believe that your testing procedures and analytical capabilities would greatly contribute to the accuracy and reliability of our research.

The sample we would like to submit for testing is a composition of Hibiscus Rosa Sinensis and Cymbopogon Citratus Stapf extracts. Our primary objective is to assess the effectiveness of this composition in terms of its ph level and antimicrobial properties.

We kindly request your institution to provide us with the following support:

1. Testing of the sample provided.
2. Analysis of the sample's chemical composition and properties.
3. Evaluation of the sample's efficacy based on predetermined parameters.
4. Documentation and reporting of the test results.

We would be grateful if you could assign a team of experts to conduct the necessary tests and evaluations. If possible, we would appreciate your guidance and involvement throughout the process to ensure a comprehensive understanding of the findings.

Moreover, we understand that your institution may have specific requirements or procedures for accepting and conducting such tests. Therefore, we are open to discussing any additional information or documentation you may require from us to facilitate the testing process.

We aim to complete our research project within the next 1-2 weeks. Thus, we kindly request you to inform us about your decision and availability as soon as possible. Additionally, if there are any associated costs or fees for conducting the tests, please provide us with the details, and we will be prepared to cover the expenses.

Thank you for considering our request. We firmly believe that the collaboration between our

research team and your esteemed institution will significantly contribute to the advancement of scientific knowledge in this field. We eagerly await your positive response.

Please find enclosed our contact information, research project overview, and any additional documents that may be necessary for your evaluation.

Should you have any questions or require further information, please do not hesitate to contact me via email. Thank you for your time and attention.

Yours sincerely,

12-Stem Research Team
