

However, at 4:30 in the afternoon, I was informed that my permit was put on hold by CENRO Santos because another verification should be done, and this time, to locate the actual tree stump where each log was cut and harvested. I, as well as the forest officers, got stunned after hearing such obviously more unreasonable directive. One even uttered, *“paano makukuha ang numero ng puno ay natumba at natistis na?”*

- c. At that time, I once again experienced the abuse of authority and self-aggrandizement of CENRO Santos. It has been several times that he made me wait for the entire day in his office just to accomplish nothing. He would create so much issues and unverified reports just to delay my papers being processed.
- d. In utter dismay as a client, I went home to Mamburao and texted him *“Public Servant Kau. Nakalagay sa pinto nyo mamamayan muna hindi mamaya na. Pakitangal kc hindi totoo, display lng. Marami ng beses na maghapon akong naghihintay sa opisina nyo.”* I added *“Maraming shipper and naglo loading walang loading inspection, nagcucutting walang cutting permit at nagkakarga sa hindi area ng permit pero ok lang sa inyo.”* I informed him that *“Sabi sa mga taga opisina ako lng ang ginaganito nyo. Ano ga ang kasalanan ko sa inyo.”* *“Maraming taon din akong nagtrabaho sa CENRO pero wala akong nakitang tao na naghintay ng maghapon sa opisina, “bukod tangi sa panahon mo”.”* I even raised *“Naka leave kayo para mag paani ng sibuyas nyo, tapos ang kliyente ay pinaghihintay nyo ng maghapon sa wala. Ang galing nyo din naman ano?”*
- e. Before reading his reply to me, I received a phone call from him using his mobile number +639178387544 at 9:21 in the evening throwing me invectives: **“gago ka”, “punyeta ka”, “putang ina mo”, “animal ka”, “sira-ulo”, “tang-ina ka”, “bastos ka” “duwag ka” “bakla ka”, “letse ka”** and what is worse is the malicious imputation against my person by saying **“magnanakaw”**. Other words conveying threat was also mentioned **“wag ako! Hindi mo ako kilala!” “Kami daw ng dating CENRO, Quebec ang sumisira ng kanilang mga ano. Na si Capiral daw ang tumira ng inventory, na kaya daw nya inipit ipit at itinaon ang mga taong nakikinabang sa akin ay kaparehas ko daw na magnanakaw”**. He insisted further that I cannot have a total of sixty thousand bd.ft. for a 284 pieces of logs. His accusations are without basis and outside of the numbers provided for in our permits and certifications in the name of Mr. Eturna. All these abusive and insulting words were within the hearing of my wife and minor son. Attached herein is a printout of my phone call history marked as ANNEX C.
