SUBJECT: Request for Seedlings for the Nationwide Philippine Statistics Authority (PSA) Simultaneous Tree-Planting Activity

Dear Dir. Claudio:

This year, the Philippine Statistics Authority (PSA) will be celebrating its 10th anniversary as the lead agency in providing relevant and reliable statistics, efficient civil registration services, and inclusive identification system in our country. In celebration of this milestone, we will be conducting several activities, including the Nationwide PSA Simultaneous Tree Planting Activity on 25 June 2023.

This tree planting activity aims to: increase tree population in the prospected areas; foster camaraderie among PSA personnel; promote public awareness on social responsibility towards environmental conservation; and support the conduct of the Annual Arbor Day in our country. By taking part in this activity, employees can play a role in helping restore the natural ecosystems and mitigate the effects of climate change, among others, in our community.

The target number of native or forest tree seedlings to be planted is 1,660 which will be planted in selected areas across all provinces of MIMAROPA Region.

Province/Municipality	Prospected Areas	Number of Seedlings
