MEMORANDUM

FOR : The Regional Executive Director
DENR MIMAROPA Region
1515 L&S Bldg., Roxas Blvd.,
Barangay 668, Ermita, Manila

THRU : The Assistant Regional Director
Management Services Division

ATT'N : The Chief, RSCIG

FROM : The Provincial Environment and
Natural Resources Officer

SUBJECT : **REPORT ON ACTIVITY CONDUCTED IN THE OBSERVANCE
OF WORLD OCEANS DAY 2023**

Respectfully forwarded is the memorandum report from CENRO Taytay dated June 14, 2023 with enclosures re: above-mentioned subject.

As stated, the CENRO Taytay conducted a Coastal Clean-up Activity in celebration of World Oceans Day 2023 on June 8, 2023 at Fuerza de Sta. Isabel (Kuta), Taytay, Palawan. The said activity was participated by nineteen (19) individuals of DENR-CENRO Taytay-El Nido and on-the-job trainees (practicumers) from Mindanao State University-Marawi wherein ten (10) are male and nine (9) are female. Around four (4) sacks of waste mostly composed of plastics were collected by the said participants and was transported to Municipal Landfill through the Municipal Environment and Natural Resources Office (MENRO)-Taytay.

For information and record.

In line with the celebration of World Ocean Day, this Office joined the nation in the conduct of coastal clean-up activity on June 8 to mark World Oceans Day 2023 with the theme "Planet Ocean: Tides are Changing."

Around four (4) sacks of waste mostly plastics were collected along the coastline of Fuerza de Sta. Isabel (Kuta) in Barangay Poblacion, Taytay, Palawan participated by nineteen (19) personnel of this Office (10 male/9 female) including the seven (7) on-the-job trainees (practicumers) from Mindanao State University – Marawi. The collected garbage was transported to Municipal Landfill through the Municipal Environment and Natural Resources Office (MENRO) - Taytay.

World Oceans Day is an annual event to celebrate the value of oceans, which cover over 70 percent of the planet but have been in dire need of help in the past few decades and are likely to deteriorate much further in coming years without decisive intervention.

According to the International Union for Conservation of Nature, at least 14 million tons of plastic enter the ocean annually. It noted that 80 percent of all marine debris discovered in sediments from deep sea waters to surface waters is made up of plastic, making it the most prevalent sort of trash in the ocean.

Attached are the photo-documentation and attendance sheet.
