Essentials of Risk Management In-depth Training Workshop from September 27 to 29, 2023(22 hours) via Zoom

Not having risk management is the riskiest action that an organization must face. Many events in a day to day operation of an agency/organization, when an error occurs might be scandalous and may have a long-term effect on the reputation or brand of an organization.

Negative events or black swans do not choose a specific organizational type, whether you are working in an NGO, public, private, or academic sector you have a reputation and a brand to protect.

Key learnings:

- Metrics that organizations use to assess a magnitude of a risk when it happens.
- Transfer risks.
- Turn risks into opportunity
- Control mechanisms for risks

Hence, we invite you to join our Essentials of Risk Management In-depth Training Workshop from September 27 to 29, 2023 (PHP2900.00 per participant) via Zoom(9:00am to 4:00pm).

98.6% of the participants who attended our Data Visualization using Spreadsheet and Fundamentals of Data Management using Spreadsheet said that the skills they acquired are helpful in their daily tasks in their organizations. This is a 22.5-hour workshop (8:30am to 4:00pm) via ZOOM.
