Good day.

We would like to follow up on the representative participants of DENR MIMAROPA for the BAMS Habitat Assessment Training.

I would also like to note that there will be an online pre-work lecture for the Coral Reef Assessment Training. This will be conducted prior to the training for 3 days, 3-4 hours/day. We will let you know once the date of the online lecture is finalized.

I am also attaching the provisional program for your reference. The participant(s) for the Coral Reef and Reef Fish Assessment should be a licensed SCUBA diver.

Thank you very much.

Best, **EENA MARIE M. NUEVAS** Environmental Management Specialist DENR Biodiversity Management Bureau Coastal and Marine Division Contact no.: +63(927)1543974 Email: eenanvs@gmail.com eenanvs@yahoo.com

In line with the implementation of the Coastal and Marine Ecosystems Management Program (CMEMP) under the Marine Protected Area Network (MPAN) component particularly the conduct of the Biodiversity Assessment and Monitoring Systems (BAMS) for coastal and marine ecosystems, we will be conducting the BAMS Habitat Assessment Training for 2023 with the details below:

- 1. Coral Reef July 24-29, 2023
- 2. Reef Fishes July 31 August 5, 2023
- 3. Seagrass and Mangrove August 8-12, 2023

Among the participants are the regional and provincial CMEMP focal person of regions 3, 4a, and 4b.

Kindly see the advance copy of the memo invitation for more information, and kindly requesting your assistance in identifying participants, preferably Technical Staff involved in the Habitat Assessment and Monitoring workstream.

Warm regards, Joaquin Silvestre Project Evaluation Officer BMB Coastal and Marine Division 0917 561 8106
