

Mine Rehabilitation Areas

DAO 2018-19

"Guidelines for Additional Environmental Measures for Operating Surface Metallic Mines" Section 5, Article d., item i.

d. Maximum Disturbed Area for Nickel Mines

i. The maximum disturbed area for extraction of ore at any one time shall be dependent on the scale of mining operations, as follows:

Scale of Mining Operation (WMT/Year)	Maximum Disturbed Area		
a. 1 Million or less	50 hectares		
b. More than 1 Million but less than 3 Million	60 hectares		
c. 3 Million but less than 5 Million	70 hectares		
d. 5 Million but less than 7 Million	80 hectares		
e. 7 Million but less than 9 Million	90 hectares		
f. 9 Million and up	100 hectares		

For projects that have a processing plant or those with long term supply agreement with domestic processing plant, the maximum disturbed area for extraction shall be one hundred sixty-two (162) hectares or two (2) meridional blocks.

Areas utilized for ancillary facilities, such as settling ponds, stock yards, sumps, motorpools, administrative offices, and other similar facilities, shall not be included in the above maximum disturbed area limit; and

Summary

DISTURBED AREAS				
Particular	%			
Rehabilitated Areas	42.22%			
Revegetated Area (TRP)	6.17%			
Ancillaries	21.96%			
For Refo & Rehabilitation	15.76%			
Remaining Disturbed Areas	13.89%			
TOTAL	100.00%			

Particular	TNMP, Ha.	PNMP, Ha.
