Dear USec. Malou,

USAID would like to coordinate with your office on the possible assistance that you would need to address the oil spill in Oriental Mindoro. USAID, together with the National Oceanic and Atmospheric Administration (NOAA), has provided support in other countries on a similar emergency case such as satellite imagery, spill analysis, trajectory modelling etc. We know that UP MSI is helping DENR already and just wondering what other assistance would you still need to contain or address the oil spill.

Thanks and happy to coordinate this with you.

Regards,

Grace
