Asia Correspondent  
TFI National French Channel

Dear Sir/Madam,

Good day po!

This is to acknowledge the receipt of your email dated February 16, 2023 received by this Office on February 17, 2023 pertaining your request for the conduct of interview of two (2) Park Rangers to be featured in a TV story about El Nido on how they do their task in protecting the area and discuss measures and best practices on environmental protection.

Please be informed that your request will be forwarded to DENR MIMAROPA Region for clearance or you can directly email them at [mimaroparegion@gmail.com](mailto:mimaroparegion@gmail.com).

We hope for your understanding hereof. Thank you.

Attached are Press Accreditation/ Special working permit from International Press Center under the News and Information Bureau of the office of the Press Secretary

February 15, 2023

Mildred Suza  
Protected Area Superintendent  
El Nido- Taytay Managed Resource Protected Area

Dear Ms. Suza,

I am Justine Jankowski, Asia correspondent for TF1, a national French channel.

I am reaching out to you as I am currently preparing a TV feature story about El Nido, more specifically on how this beautiful region of Palawan is preserving the environment while dealing with tourism.

The feature story will last about 4 minutes and we aim to film on the 4th or 6th of March. The whole shooting would last around 2 hours.

It will be broadcast in our daily news show called "le JT du 20H" by the end of March.

We would like to film how your rangers do their tasks in protecting the area and we would also interview them to discuss the measures and best practices you use for protection.

We hope to accomplish this through a boat-tour with your 2 rangers who patrols the area on a regular basis.

The crew for the shoot will consist of one cameraman, one reporter, and one local coordinator/Stringer

Looking forward to hearing from you,

Best regards,

--
