TIME: _____

In line with the continuous efforts of the EMB-MIMAROPA to carry out its mandate to the full extent while providing exemplary service and support to its constituents, the undersigned would like to humbly request ample lot allocation on the DENR-owned lot in Brgy. Pasadena, El Nido, Palawan to be used for the EMB-MIMAROPA Region Satellite Office and Laboratory.

El Nido, Palawan has been recently popular because of the threat to the conservation and protection of its environmental condition as industrial and tourism development become rampant in the area. In line with this, the EMB-MIMAROPA Region aims to strengthen its presence in the area even more by establishing a satellite office and laboratory that can expedite the services of the bureau. For instance, industrial effluent samples are currently transported to the Puerto Princesa EMB-MIMAROPA Satellite Laboratory for physico-chemical and bacteriological laboratory analyses, which entails immense cost and effort. On the other hand, proponents need to travel to Puerto Princesa as well just to transact with the bureau, which can discourage them even more to comply with the environmental policies being executed by the office. The presence of the satellite office within El Nido, Palawan bridges these gaps and therefore creates an arrangement that is beneficial to both the office and the proponents.

This office acknowledges the continued support of your office and strongly recommends that this is another endeavor that we can take on together, which can benefit the environment.

For the Regional Executive Director's consideration and approval.
