I. EVALUATION OF THE COURSE:

- Technical Content:**

Based on my understanding during the webinar, the formally known as Republic Act No. 11032, the Ease of Doing Business (EODB) Law in the Philippines seeks to streamline government procedures and cut down on bureaucratic red tape in order to enhance the business climate.

Below are the notable features of the EODB law:

1. Standard processing time for government transactions
2. Citizens Charter for all government agencies
3. Faster processing of business permits and licenses
4. Automated business registration process
5. Zero-contact policy
6. Accountability

One topic caught my attention and I believe this is very important in all government agencies which is the automation of all some government transactions. In government agencies in the Philippine setting, automated filing procedures are essential for creating an environment that is favorable to business, boosting the economy, and bringing in investment. In the long run, they help businesses and the government by lowering bureaucracy and increasing efficiency, transparency, and accessibility.

- Impression/Comments:**

Not all services of the office especially field offices like DENR CENRO San Jose are included in the Citizen's Charter as the result, that services fell under simple category of transaction which is 3 working days. However, some of these services cannot possibly accomplish in that short period of time.

II. RELEVANCE OF THE LEARNING EVENT TO PARTICIPANT'S WORK/FUNCTION:

This learning event is very relevant to me as I am also one of those who deals with a lot of costumers/clients most especially in the community most especially during the fieldwork/community organizing.

II. RECOMMENDATIONS:

Continuous conduct of capacity building pertaining to EODB Law in the DENR most especially field offices. This will familiarize all employees regarding the law and with that, we as the DENR employee can provide good services effectively and efficiently.
