MEMORANDUM

FOR : The PENR Officer
Puerto Princesa City

FROM : Planning Unit
Palawan wildlife Rescue and Conservation

SUBJECT : **CONSOLIDATED INVENTORY REPORT OF CROCODILES AND
OTHER WILDLIFE SPECIES FOR THE MONTHS OF JANUARY
TO OCTOBER 2023**

DATE : November 10, 2023

Respectfully submitted is the consolidated Inventory report of crocodile maintained and other wildlife species within Palawan Wildlife Rescue and Conservation Center for the months of January to October, 2023

As of October 31, 2023, there were 382 *Crocodylus mindorensis* and 711 *Crocodylus porosus* which was maintained composed of hatchling, juveniles, sub-adults and breeders.

In addition are the attached list of other wildlife maintained at the Palawan Wildlife Rescue and Conservation Center.

This report submitted to serve as MOV for the target activity.

For information and record.

	1,249	1 M	4	1,246 M	Total

Note: Sizes classification based on length measurement (Only updated are the hatchlings and juveniles C. p. Sub-adult and adult including C. m. are not yet)

	Hatchlings	Juveniles	Sub-adults	Adults	Total
Freshwater crocodile (<i>Crocodylus mindorensis</i>)	211	52	25	115	403
Saltwater crocodile (<i>Crocodylus porosus</i>)	146*	522*	107 M	68	843 M
TOTAL	357	574	132 M	183	1246 M

* Correct quantity of crocodiles will be determined after head count. These number of crocodiles only basing on old records (2022). Therefore, need to conduct head count since it was observed that some group of crocodiles were encountered cannibalism in year 2022. For now, preparation of 200 crocodiles to be purchased are still on going. That's why actual recount and updating size classification in other areas is not yet performed

CROCODILE INVENTORY AS OF AUGUST 2023						
	As of July	Turned over	Hatched	*Mortalities	Stocks	Remarks
Freshwater crocodile (<i>Crocodylus mindorensis</i>)	399	0	0	4	395	*Mortality: hatchling 3 and juvenile 1.
Saltwater crocodile (<i>Crocodylus porosus</i>)	638	2	22	0	662	Turned over: 1 from PCSD (Taguig) and 1 turned over from M. Budang of Irawan. Plus 22 hatched in captivity.
	1,037	2	22	4	1,057	Total

Note: Sizes classification based on length measurement (Only updated are the hatchlings and juveniles C. p. Sub-adult and adult including C. m. are not yet)

	Hatchlings	Juveniles	Sub-adults	Adults	Total
Freshwater crocodile (<i>Crocodylus mindorensis</i>)					
Saltwater crocodile (<i>Crocodylus porosus</i>)	119*	370*	108	65	662
TOTAL	325	421	133	178	1,057

Note: Correct quantity of crocodiles will be determined after head count, these number of crocodiles only basing on old records (2022). Therefore, need to conduct head recount since it was observed that some group of crocodiles were encountered cannibalism in year 2022. Head recount and updating measurement for both species of crocodiles (hatchling and juvenile) in the area of HHA and HHB were done this month of August. For now, repair of P24 is going on, and after repairing the area, will be placed other sizes of crocodiles from the area of T1. The said activity was part of initial inventory and updating, until such time that other sizes of crocodiles will be accommodated (the same after rehabilitation of other pens at the back before end of the year).

CROCODILE INVENTORY AS OF SEPTEMBER 2023						
	As of August	Turned over/rescue	Hatched	*Mortalities	Stocks	Remarks
Water crocodile (<i>Crocodylus mindanensis</i>)	395	0	0	7	388	*Mortalities: hatching -2, juvenile-3, breeder-2.
Water crocodile (<i>Crocodylus porosus</i>)	662	0	55	2	716	Plus 1 head day old hatchling turned over on February 2, 2023. *Mortalities: hatching-1, breeder-1.
	1,057	0	55	9	1,104	Total

Note: The total stock of crocodiles as of September is about 1,103 based on figure, however, the 1 head day old hatchling turned over on February 2, that was not reflected in the previous month is now included for September. With that line, a total stocks of crocodile is about 1,104 based on records.

	Hatchlings	Juveniles	Sub-adults	Adults	Total
Water crocodile (<i>Crocodylus mindanensis</i>)	204	48	25	111	388
Water crocodile (<i>Crocodylus porosus</i>)	174	370	108	64	716
TOTAL	378	418	133	175	1,104

Note: Correct quantity of crocodiles will be determined after head recount, since it was observed that some group of crocodiles encountered cannibalism in year 2022. Head recount and updating of size classification (based on length) was started in the month of August and still on-going.
