Dear Ma'am/Sir,

Good day!

We trust this email finds you well. We are reaching out to discuss the ongoing data cleansing process for biodiversity spatial layers within the DENRCM Portal.

Specifically, we are inquiring about the current status of the memo endorsement for the initial cleansed data within the Editor's Group. While we've observed data present in the Editor's Group, there is uncertainty regarding whether these have undergone review by the Regional Office. Clarification on this matter would greatly assist us as we proceed with the subsequent steps in the data review.

We are enthusiastic about advancing the data review process and obtaining this endorsement stands as a crucial step within our timeline. If there are any additional details or actions required from our end, please feel free to inform us.

Your prompt response to these inquiries is highly valued. Thank you for your attention to this request, and we eagerly anticipate progressing to the next steps in the data review.

Regards,

BMB CONTROL MAP
