**MEMORANDUM**

FOR : **THE OFFICER IN CHARGE**  
Office of the Secretary

FROM : **THE EMB DIRECTOR AND CONCURRENT**  
**ASSISTANT SECRETARY FOR FIELD OPERATIONS**

SUBJECT : **REQUEST CLEARANCE PRIOR TO THE FINAL**  
**APPROVAL OF THE TECHNICAL SCOPING CHECKLIST**  
**FOR THE PROPOSED SUMAGUI RIVER DREDGING**  
**PROJECT WITH RIVER DELTA CLEARING OF IONIC**  
**CEMENTWORKS INDUSTRIES, INC. AND PASIG RIVER**  
**EXPRESSWAY CORPORATION (EMB R4B)**

Attached Documents : **PROJECT DESCRIPTION FOR SCOPING, EIA SCOPING**  
**CHECKLIST, NOTICE OF MEETING**

DATE : **SEP 15 2023**

This refers to the Technical Scoping Checklist of the proposed Sumagui River Dredging Project with River Delta Clearing, a Joint Venture of Ionic Cementworks Industries, Inc. and Pasig River Expressway Corporation along Sumagui River in Bansud, Oriental Mindoro.

Pursuant to Item B of DENR Memorandum Order No 2023-01, which states that *"EMB Central and Regional Offices that are handling the ECC applications of projects to be located within or with close proximity to Protected Areas and RAMSAR sites are required to secure a Clearance from the Office of the Secretary (OSEC) prior to final approval of the technical scoping checklist xxx,"* the undersigned respectfully endorses herewith the Technical Scoping Checklist of the abovementioned project.

Per memorandum of the EMB Region IV-B, the Technical Scoping meeting was conducted last 21 July 2023, 2:00pm at the 6th Floor DENR by the Bay Building, Roxas Boulevard, Ermita, Manila and virtually via MS Teams. It was attended by the EIA Review Committee (EIARC) Members and resource persons from the FMB, DENR Region IV-B, MGB Region IV-B, DPWH Region IV-B, PENRO Oriental Mindoro, and CENRO Roxas.

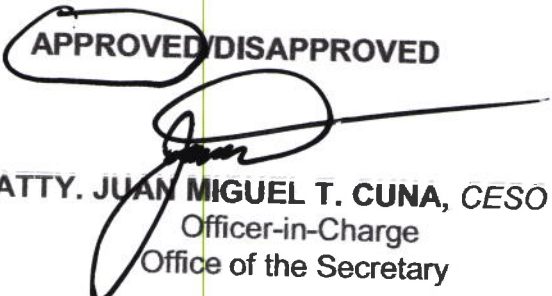

According to the EMB IV-B, there is one (1) proclaimed Protected Area in the Province of Oriental Mindoro, namely the Mts. Iglit-Baco National Park in the municipality of Bongabon, which is approximately 18.22 km away from the boundaries of the proposed project. Meanwhile, the Naujan Lake National Park, a duly recognized Ramsar site under RSN 1008, is approximately 39.80 km away from the said project.

The proponent reports in their submitted Project Description that power requirements will be sourced from the local electric utility, ORMECO: the project will use an estimated capacity of 20kWH per day for its site office and other support facilities. Meanwhile, water will be outsourced from Local Water Vendors/Tenders in the area.

Attached for reference are the scoping checklist, the notice of the meeting, and the project description. All comments and additional information by the EIARC and Resource Persons were reflected on the attached EIA scoping checklist and were thoroughly discussed during the aforementioned Technical Scoping meeting.

For approval and/or further instructions, if any.
