

November 24, 2023

FELIX O. MIRASOL, JR., CESO IV
Regional Executive Director
DENR MIMAROPA Region

Thru: **The PENR Officer**
DENR PENRO Palawan

Dear Sir,

Greetings!

I am Franklin P. Gadiano, currently holding the position of Forest Technician I at DENR CENRO Puerto Princesa. I submitted an application last September 11, 2023 for the position of Forester I at same office. I am writing this letter to request for your kind reconsideration with regards to my application as Forester I. I understand that my application has been deemed incomplete past deadline because of my expired PRC license, the valid ID that I submitted as part of my application requirements. I was only informed verbally that I was disqualified for the said position and have yet to receive a formal regret letter.

Please be informed that I only received my renewed PRC license on November 17, 2023. As much as I wanted to have my PRC license renewed before the deadline, I was only given a PRC renewal appointment on November 17, 2023.

The undersigned is a licensed Forester and is humbly asking your kind consideration to let me continue with the application process. I have been working as Forest Technician I with designation as Land Classification verifier and mapper at GIS Unit of CENRO Puerto Princesa for six (6) years and I believe I have shown my dedication and loyalty to the said office through these years.

This one opportunity that I hope you will extend to me would mean a lot to me and my young family.

I can submit my valid renewed license anytime should I be reconsidered to continue with the application process.

Thank you very much.

Respectfully yours,

FRANKLIN P. GADIANO
Registered Forester
Forest Technician I
