Dear DENR,

I hope this message finds you well. I am currently working on a research investigatory project focusing on cyanobacteria, and I am in need of assistance with a cyanobacteria determination for a specific water body.

I kindly request your expertise and guidance to help me determine the presence of cyanobacteria in water samples collected.

Your assistance is highly valuable to the success of my research investigatory project. If you are available for a brief consultation, please reply to this email, it would be greatly appreciated.

Thank you for considering our request.

Sincerely,

Hebreo Almeniana Manay
