FOR : **JOE AMIL M. SALINO**

FROM : **ACTING REGIONAL MANAGER**

SUBJECT : **IMPLEMENTATION OF PROPOSED BAGTINGON SMALL RESERVOIR IRRIGATION PROJECT IN MARINDUQUE**

This refers to the implementation of the Bagtingon Small Reservoir Irrigation Project situated in Buenavista, Marinduque. On September 22, 2023, the Division Manager of the Mindoro Oriental, Marinduque, Romblon Irrigation Management Office (MOMARO IMO) initiated contact with your office to discuss the status of the Environmental Compliance Certificate (ECC) obtained for the project. Following the meeting, it was mutually agreed upon by your office to utilize the existing ECC, acquired by the NIA Provincial Office in December 2013, for the purpose of bidding and the submission of related documents. It was also acknowledged that, if necessary, the old ECC might need to be amended.

Consequently, we are presenting the updated project milestones for your assessment and validation. Additionally, the NIA intends to initiate the procurement process for this project by December of this year and plans to commence project implementation in the subsequent year, preferably during the first quarter of 2024. As a result, we are kindly requesting your authorization to employ the old ECC for the project, specifically for the issuance of a tree cutting permit by the Provincial Environmental Officer (PENRO). Furthermore, we seek your approval to proceed with the project's procurement and implementation, noting that the acquisition of a Special Use Agreement for a Protected Area (SAPA) is integrated as a requirement within the ECC.

For your information and reference.
