Submitted are the enumerated activities that were undertaken during the quarter, to wit;

1. That the monitoring of marine turtle's nesting sites and hatchery was sustained.
2. That on July 3, 2023, MENR Officer Richard P. Saet of Municipality of Torrijos informed this Office that there was a nesting of a marine turtle at White Beach, Poctoy, Torrijos, Marinduque. The incident was sighted by a group of local visitors/tourist while relaxing from the beach. They also informed the beach administrator, Mr. Roberto F. Macdon, who regularly monitored the nest. Also, another nesting of marine turtle occurred at the beach on July 15, 2023. MENRO Saet ordered his personnel to enclose the area with fence to protect the eggs. He also ordered to conduct a daily monitoring of the nests. As of this date, no signs of emergence process are observed on the top layer of the nesting sites, however, continues monitoring of the nest are regularly undertaken by DENR and MENRO Torrijos.
3. That on September 3, 2023, Masiga hatchery has released ninety (90) hatchlings of marine turtle in the coastal waters of Barangay Masiga, Gasan. Accordingly, the 90 hatchlings of Green Sea turtle (*Chelonia mydas*) were found by the residents in Barangay Bacung-bacung, Gasan and was turned-over to Kagawad Enerdo R.
