Roxas Blvd., Manila

Attention: MR. NEIL ANTHONY A. DEL MUNDO
Tamaraw Conservation Program Coordinator
DENR-Occidental Mindoro

Dear RED MIRASOL:

The Provincial Government of Oriental Mindoro (PGOM) values the Tamaraw as a source of pride and heritage that not only the Mindoreños but all Filipinos can be proud of.

The Oriental Mindoro Heritage Museum (OMHM) was opened to the public 15 November 2021 during the 71st Founding Anniversary which was built at the Old Provincial Capitol of Oriental Mindoro in Brgy. Ibaba, Calapan City. It showcases the province's rich culture and history and its features are inspired by the "MAHAL TANA" theme which highlights the iconic symbols of Oriental Mindoro – MAngyan, HALcon, Tamaraw and NAujan Lake. Only last 05 October 2023, it was recognized as the Grand Winner, for Best Program for Culture and Arts of the Association of tourism Offices of the Philippines.

At present, it is one of the top tourist attractions in the province visited by both local and foreign tourists. Cultural artifacts, historical records, things used by the native Mangyan for livelihood and household, including evidences of abundant biodiversity and remarkable collected memorabilia are displayed in the OMHM.

In this connection, we would like to request the skeleton of Tamaraw found in Mt. Gimparay in Brgy. San Andres Putik, Naujan to be showcased in the OMHM in time for the 73rd Founding Anniversary Celebration of the province this coming 15 November 2023. Showcasing the Tamaraw Skeleton in the OMHM will not only add value to this facility but will also enhance the advocacy on the protection and conservation of this endemic wildlife locally, nationally and globally.

We believe that the Tamaraw skeleton displayed for viewing to the public in the OMHM will gain more understanding and interests for support for this critically endangered wildlife and its habitat protection and conservation among different stakeholders. To showcase a complete skeleton of the Tamaraw will also be a major attraction in the museum foreseen to contribute to the general goals of economic and environmental sustainability in the province of Oriental Mindoro.

Thank you.

Very truly yours,

MAXIMINO A. JUMIG, JR.
