Dear everyone,

Thank you for attending the meeting and for understanding the situation.

I think what will happen this year is a preparatory meeting/training and a site visit to Mag-asawang Tubig.

I can only commit myself for now as Richard has some personal matters that came up. Please let me know what dates work for you.

My schedule is more flexible than Richard so I can move dates if possible. (And if ever Richard is available in any of the day on 4-11 Oct, we can just have a meeting with you and Usec David.)

I believe this preparatory activity would greatly benefit the subsequent activities as we will receive proper training from the developers themselves.

As the current budget do not cover our international flights, we are doing our best to obtain funding to pay for the flights and time of the team.

We can start the consultation and support anytime.

Your understanding and patience are really appreciated.

Thank you.

All the best,

Pammie
