Good day Ma'am Herlina!

This is JR from the Land Resource Data Analysis Division (LRDAD), NAMRIA. Our division is mandated to conduct land cover assessment/evaluation and we produce the Land Cover Maps and Statistics of the Philippines.

This pertains to the above subject. I would like to clarify the concerns I raised during our recent phone call. My primary concern is to request the Reclamation Boundary in shapefile format, which was surveyed by the DENR Team. The purpose of this request is to overlay the reclamation boundary on the Land Cover Map and Satellite Images. This will enable us to analyze and assess the impact of the reclamation project accurately.

Attached is the letter from OIC RED Felix S. Mirasol, Jr. in pdf file format.

Thank you very much for your understanding. I look forward to your response. Have a nice day ahead!
