<u>Basic Statistical Analysis using JASP and JAMOVI In-depth Training Workshop - December 2, 9 and 16, 2023 (via ZOOM)</u>

What if you had access to free statistical software tools that never expire? Envision software solutions that not only uphold rigorous academic publication standards but also seamlessly harmonize with Western contexts, catering to the specific needs of both government and the private sector.

And the best part? You can harness the power of these user-friendly tools without writing a single line of code□just effortlessly drag and drop your variables!

🚀 *Join our vibrant virtual workshop in Basic Statistical Analysis using JASP and JAMOVI In-depth Training Workshop - December 2, 9, and 16, 2023 (9:00 AM to 4:00 PM via ZOOM)(PHP2500.00) and get ready to*

Master the art of choosing between parametric and non-parametric tests
*Demystify fundamental descriptive statistics like a pro
*Learn how to determine if your data is a perfect fit for simple or multiple linear regression
*Develop indispensable data management skills that set the stage for JASP and Jamovi mastery
*Conduct effective statistical analyses using the intuitive JASP and Jamovi interfaces.

This workshop is tailor-made for
1. Academics who want to elevate their statistical prowess
2. Healthcare professionals eager to wield statistics in their field
3. Government employees and officials with a passion for data-driven decision-making
4. Private sector workers looking to expand their statistical toolkit
5. Anyone ready to dive deeper into the world of statistics and its pivotal role in research and decision-making

To register (copy-paste the link to your web browser): <<https://forms.gle/N6Qhca5C7uEGGned6>

Note: To access the course outline, description, and program of activities, send us an email

More information (payment details and workshop inclusions): https://forms.gle/ZMxvrKNSGzrY5gga

Don't miss out on this opportunity to supercharge your statistical skills! Secure your spot now and embark on a lively journey into the world of data-driven discovery

Regards
