MS. ALICIA IBARRA

1407 Mercury St., Constellation Home,
Brgy. San Isidro, Angono, Rizal 1930

Dear Ms. Ibarra:

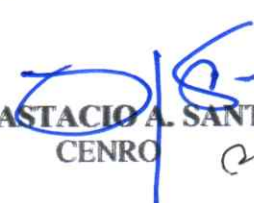

This pertains to your undated letter sent thru LBC and was received by this office on July 30, 2024 regarding your claim to the parcel of land allegedly owned by your father – Hidalgo Villarosa located at Sitio Pulong Bagto, Barangay Balansay, Mamburao, Occidental Mindoro.

We would like to re-iterate in our previous letters addressed to you that since the land titles were already issued a long time ago, this office has no longer jurisdiction over it. A team from the Monitoring and Enforcement Division of DENR Regional Office conducted the ocular inspection and investigation and submitted their report with categorical recommendations that you have to file an adverse claim to a proper court if you believe that you are the lawful owner of the land covered by the land titles.

With regard to your complaint that some personnel of this office were involve in the illegal issuance of land titles, it is already your call if you want to file a complaint against them.

Hope we have answered your concern and thank you very much.

Very truly yours,

FOR. ANASTACIO A. SANTOS, MPA

Sir,

This is my answer my father died I was still in the womb of my mother. We are still small children and my father left in Min. continue cultivate the land but people drove him away. People take chances cause my father died.

We grew in Manila. It only happened I met Verdara a relative and told its not true it was sold to Petra cause hes a caretaker of Petra.

I start to search until I discovered everything what the people and officer of CENRO time of Quebec and Espejo.

Several times I went to your office heard so many things even to San Jose Min. Alice your land was chop well known to people pinagpipistahan. I said this to Quebec answered Sino-sino shouting.

Enclosed here some letter to CENRO and sent copy to your office

until I discovered this indecard dismissed Petra. All surprised DENRO name of Petra Cur 1989 now you dismissed Petra 1961 Nobody answer even Espejo cant speak so many manipulation. From the beginning I start searching Tax Declaration Mar. Assessor, I asked why it was transferred to Petra no answer humag mo ng habulin man ang sago t.

Second time I met Verdara again Mindoro repeat its not true it was sold to Petra all documents was with me including the map

I start communicate with CENRO heard what the applicant dialogue. they dont know we are the owner waiting. We just

listen cause the time Quebec told me I had no right in this land. I can't fight with him cause the time I had presented documents still I'm afraid with him cause he's shouting.

So many anomalies happened like no tax No not in Pulung Bagto but in Manturadi. I don't know all of these

Question your office was able to dismissed Petra with no reason impossible you can't locate your documents or something wrong. I imagine PFHRO 1989 Petra Cruz dismissed 1976 no reason. All employees can't speak even Espejo Time I asked there should be answer at once but all surprise nobody speak I said Atakan ni yo inde card to prove it came from your office. What can you say with this Mr. Santos or the anomalies comes out, ??

I don't know why there was no investigation to Quebec and Espejo. So many manipulation in your office.

Another question why CFHRO allowed Osmerio enter this land cause he's holding documents of my father, included the map. Why did CFHRO did not notify us my family inspite we had a letter to them about this land. About the plan of Verdera same time awarded to his children, so what's this all about.

I asked you Mr. Santos what can you say with this, with all the questions and problems you're telling do you think there's no manipulation of location lot no location to destroy everything. If they manipulate Petra what more of other things they dismissed Petra to proceed with

Thanks Mr. Santos for your assistance but I
need to be frank with what happened, It's hurts
me so much for all these things happened to us,

We did not enter this land cause they drive us
away and did not give respect on our sides
Very cruel you are Mr. Quebec and Espejo,

God is watching us

lastly I asked RED to give us a copy of
final investigation from Enforcement Division
especially the lawyer, I know this is needed,

I need help to the following RED Civil Service
